

Sentat Collection

Technical Sheets

*Design: Studio Inma Bermúdez
Manufactured in Spain (EU)*

placet[•]

100% recyclable

Made in Spain

Punto is made in one single piece with high density injected polyurethane foam in a previously coloured mould and hand finished. Manufactured in Spain and 100% recyclable.

Easy to clean and disinfect at site

For normal cleaning, use warm water with a mild detergent and a cotton cloth or with disinfectant products (always try underneath first). No seams nor joints where bacteria collect.

Water resistant

Punto borns to live outside and no matter the weather conditions, we are waterproof and resistant to extreme temperatures (up to -10°) and suitable for year-round outdoor use.

Resistance to cold and hot liquids

Water permeability UNE-EN 12720 and NF T30 801.

UV Stable

Punto loves sun and fresh air as much as you do but don't worry, a coat of ultra UV rays has been applied and it is UV stable. Over time, the Punto color will not fade.

Fire resistant

We all want to be safe and our products meet the BS 5852/ Ignition source 1&2.

Safe for children

Let's play with Punto. Safe use for children, meet norms EN 71-1, EN 73-3 and Cd and Pd content.

Easy to storage and move around

We have designed a trolley and a wall bracket to have your cushions always ready for informal talks. Make maximum use of your space and fill it with Punto whenever you need extra seats.

Custom color

No limits at all! No need to pick among our color chart. Just tell us the RAL, Pantone or any other reference and we will match it (minimum order 60 pcs).

Custom Logo

You like to be unique and we understand it. We have designed a system to personalize the cushion with the corporate logo.

Attachable to a surface

Sometimes you need to attach the cushion to a seating surface and different solutions are offered.

Anti-theft alarm insert

Maybe your space is too open and you need to secure the products? During the manufacturing process we can insert the alarm device so you will notice when some Punto wants to live a new life far away.

100% Recyclable

Our environment matters. Even this is a long term product, when it's lifetime is over it will be recycled to obtain raw material again ready for a new life. We all need to care about our environment.

Our artisanal & industrial way

We guarantee a product that is finished 100% by hand. We make sure to provide the best quality to our customers.

Stay away from virus and bacteria

When considering social distancing and disinfection, Sentat provides a very easy solution. Easy to clean and disinfect at site without special cleaning methods.

COLORS Stool bases

It does not absorb chemicals

in cleaning products or any kind of fluids. It is a "closed cell" material and it therefore does not keep air inside it nor act as a sponge that loses its shape over time.

No seams nor joints,

so there will be no hidden bacteria or dirt. It is made from a single piece, and therefore it is very easy to recycle.

Suitable for outdoors

They can be used all year round, even in extreme weather conditions. Punto has a very long useful life, even with heavy use.

100% recyclable

We do not want products that age badly or quickly, and which have to be replaced repeatedly. Our commitment to nature and the environment.

Designed to last

The color is mixed in the mold and therefore the colours are consistent throughout the piece, meaning that if any small scratches appear through use, they will be barely noticeable.

Lightweight and easy to carry

Depending on the model, between 800 and 1000 grams. Check the options and accessories for its transport and storage that we offer.

CERTIFICATES

Complies with the regulations of:

EN 71-1:2014 +A1:2018: Toy Safety. Part 1. Mechanical and Physical Properties.

EN 71-2:2011 +A1:2014: Toy Safety. Part 2. Flammability.

EN 71-3:2019: Toy Safety. Part 3. Migration of Certain Elements.

UNE EN 1021-1:15 + UNE EN 1021-2:15: Assessment of Flammability of Upholstered Furniture.

BS-EN 1021-1:15 + BS-EN 1021-2:15: Assessment of the Ignitability of Upholstered Furniture.

UNE-EN 12720:2009 + A1:2014: Surface Resistance to Cold Liquids.

NF T30-801:79. Determination of Permeability to Liquid Water.

ASTM F963-17: Standard Consumer Safety Specification on Toy Safety: Parts 4.3.5.1.(2) Paints and Similar Surface Coating Materials and 4.3.5.2.(2,b) Substrate Materials for Toys.

Cadmium, point 23 Annex XVII Regulation REACH (CE) 1907/2006.

Lead, section 4.3.5.2 (2, a) of the Regulation ASTM F963-17 Standard Consumer Safety Specification on Toy Safety.

Lead on Non-Metallic Substrates, Section 101 de CPSIA.

WARRANTY

Our products are covered by a warranty of 3 years from the invoice date, provided that products are used under the conditions for which they are designed and for their intended purpose. Warranty does not cover jumping, standing or walking on the cushions nor inappropriate behaviour with sharp objects.

PACKAGING & TRANSPORT

All our products are properly packed in cardboard boxes, trying to make a rational use of disposable materials.

ASSEMBLY INSTRUCTIONS

All our products contain assembly instructions for their correct installation, including the hardware on the trolleys. The hardware for fixing the hanger to the wall is not included as the appropriate hardware depends on the wall where it will be placed. The cushions are ready for use.

CLEANING AND MAINTENANCE

The **cushion** is very easy to clean and disinfect. Our recommendation is to clean it with mild soap and water or multi-purpose spray. Although it is very resistant to stains, if you need to apply a stronger product, test a small amount on the underside and wait 5 minutes. Gently remove with a white cloth and if it does not appear pigmented, then you can use it. If the cloth is colored or you see that the appearance of the cushion changes, then avoid using it. If you use bleach, dilute it in cold water with a 1/10 ratio. You can use disinfectants and other bactericides, but follow the manufacturer's instructions. **The cushion does not absorb chemicals from cleaning products.**

Wipe dry to clean the metallic parts of **trolleys, wallbrackets and stools**. Periodic tightening of the bolted joints using an Allen key is recommended.
